

DAY 1 - October, 9th

Chairmen: Yehuda Shoenfeld, Mauro Galeazzi, Dario Roccatello

Arthritis and spondyloarthropathy		
13:00	The potential of autologous patient-derived circulating extracellular vesicles to improve drug delivery in rheumatoid arthritis.	Gilad Halpert
13:15	The changing scenario of cryoglobulinemia	Dario Roccatello
13:30	Can we prevent psoriatic arthritis in patients with psoriasis?	Watad Abdulla
13:45	Rheumatoid arthritis in the elderly	Gleb Slobodin
SLE and APS		
14:00	APS classification criteria: new and old aspects.	Angela Tincani
14:15	Clinical and histopathological features of APS nephropathy	Sciascia Savino
14:30	SLE treatment: which biologics should we use in which patient?	Andrea Doria
14:45	Hypereosinophilic Syndrome (HES) in clinical practice: red flags and management	Luisa Brussino
15:00	Steroid-sparing effect of new agents in the management of lupus nephritis: evidence from randomized clinical trials	Sciascia Savino
15:15	New trends in the management of SLE	Angela Tincani

Allergy and Autoimmunity		
15:30	Allergy and Autoimmunity, revisited "through the looking glass".	Amir Tanay
15:45	Overview of Allergic Bronchopulmonary Aspergillosis (ABPA) and clinical implications in asthma	Luisa Brussino
16:00	Sema3A balances immunometabolism in autoimmunity	Zahava Vadas
16:15	Tattoo and Autoimmunity	Amir Tanay
16:30	EULAR and Global Rheumatology	Annamaria Iagnocco
Pregnancy and Autoimmunity		
16:45	The management of pregnancy in autoimmune rheumatic diseases: analysis of nearly 1000 pregnancies enrolled over 5 years in the prospective nationwide P-RHEUM.it Study (The Italian Registry of Pregnancy in the Rheumatic Diseases).	Laura Andreoli
17:00	Environmental and chemical substances in human reproduction: a review of the epidemiological evidence	Caterina De Carolis
17:15	The change in the patient information leaflet of hydroxychloroquine with regard to an increased risk of malformations in newborns exposed in utero: impact on physician-patient communication and tricks&tips on how to manage it.	Laura Andreoli
17:30	Thyroid autoimmunity, autoimmune diseases and recurrent spontaneous abortion.	Caterina De Carolis
17:45	Academic lecture: The novel aspects of autoimmunity to the autonomic nervous system: from post Covid to Chronic fatigue syndrome	Yehuda Shoenfeld

DAY 2 - October, 10th

Chairmen: Yehuda Shoenfeld, Mauro Galeazzi, Dario Roccatello

Emerging Topics		
9:00	Survival of scleroderma patients with interstitial lung disease, Rambam center experience	Alexandra Balbir Gurman
9:15	The impact of new anticancer agents on immunity	Roberta Fenoglio
9:30	Soluble CD72-CD6 axis: A new pathway in autoimmunity	Elias Toubi
9:45	The changing perspectives of SLE management	Dario Roccatello
10:00	Blood-derived extracellular vesicles as potential diagnostic biomarker in fibromyalgia syndrome.	Gilad Halpert
10:15	How might complement inhibition change our therapeutic approaches in the next future	Roberta Fenoglio
10:30	Lung complications in patients with rheumatic diseases treated with B cell depletion therapy	Alexandra Balbir Gurman
Arthritis and spondyloarthritis		
10:45	Treatment of Axial Spondyloarthritis -biologic agents and small molecules	Piercarlo Sarzi Puttini
11:00	The immunopathogenesis of spondyloarthritis	Watad Abdulla
11:15	Paradigm change in the SLE treatment	Andrea Doria
11:30	The ongoing revolution in Rheumatoid Arthritis	Piercarlo Sarzi Puttini
11:45	The interplay of inflammation and bone formation in ankylosing spondylitis	Gleb Slobodin
12:00	Closing Remarks	Dario Roccatello and Yehuda Shoenfeld

11th ISRAEL - ITALY

New trends in Autoimmunity and Rheumatology

Turin, October 9-10, 2023

GENERAL INFORMATION

Conference Venue

ACCADEMIA DI MEDICINA
Via Po, 18 – 10121 Torino

Registration

Participation is free.

To register, please connect to the website <https://www.selenecongressi.it/eventi>

Organizing Secretariat

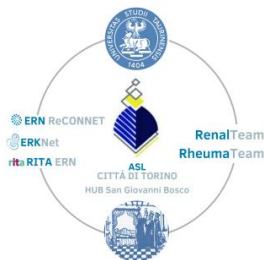

Via G. Medici, 23 – 10143 Torino

Tel. 0117499601
